

Contribution to Climate Protection

12.08.2026

FUNLUS OY

Calculated quantity of 17.6 t CO₂
with a value of EUR 511.00

Contribution for climate education of EUR 8.00

This contribution to climate protection is having a real impact!

Support the reforestation project in Nicaragua, the second-poorest country in the western hemisphere. Small-scale farming families are reforesting unused sections of their land with native species. The programme combines practical nature conservation with the creation of new income sources for local families.
